

Other Christian Societies we work with on campus:

Christians in Sport is a national organisation with groups in over 50 universities all over the UK. The group at Hull University is all about making sport your mission. If you are a sports person who also loves God and want to be a witness to others for Him then it's the perfect place for you to be! We work on the basis of pray, play, say (Colossians 4:2-6).

Praying for change and opportunity, playing in a way that honours God and saying something about Him to your team mates. The main purpose of the group is to support and equip its members to go and reach the sports teams at the Uni for Christ. We will meet together once a week, have a period of teaching in an aspect of how we evangelise to our teammates and then pray for each other and the situations we are facing in our sport. We don't just focus on how we perform on the pitch but look at all the aspects of being in a Uni sports team with everything from changing room banter to socials, all the time looking at how we can best represent Christ within these areas. Please contact us for more information and to get involved.

Christian Medical Fellowship

Christian Medical Fellowship is an organisation for medical students and qualified doctors alike. CMF in hull has been active for a few years now and in a word is just AWESOME! We meet fortnightly in the medical school for lunch (always yummy!) and discussions on ethical issues, current affairs in the medical world amongst many other things. Once a month we also go to a local doctors' house for pasta, ice-cream and good times!! Throughout the year we team up with the other Christian groups on campus in their evangelistic events and meetings and vice versa showing support for one another. CMF is also a great opportunity to meet students from different years and also from other universities. So why not come along and check us out! For more information, join the facebook group 'HYMS-Christian medical Fellowship' or e-mail us at cmf@hyms.ac.uk
